Test Case Description

Test Procedure ID : 287 BR7 R5.8-RCD638 - TRPR0029 - Recordable & Non-Recordable Civil Offences

Test Phase :

· System Integration Testing

Test Type :

· Regression Testing

Test Items verified :

- Bichard7 application
- Message Brokering
- Portal Services (Strategic Portal Framework)
- Identity & Access Services (Tivoli)

Test Design Techniques used :

· Specification-based (black box) techniques

External Entities (to which Bichard7 interfaces) verified :

- (2.2.2) EII's forwarding of Court Hearing Result messages received from LIBRA- (2.2.4) NSPIS-PNC Interface Implementation in PNC
- (2.2.6) User's web browser

Information (or System Control) Flows verified :

- (2.3.2) Magistrates Court Hearing Concluded- (2.3.5) Arrest/Summons-based Enquiry Request
- (2.3.6) Arrest/Summons-based Enquiry Response
- (2.3.10) Court Result or PNC Update Exception/Trigger List Request
- (2.3.11) Court Result or PNC Update Exception/Trigger List Response

Business Scenarios verified :

· N/A

Documents Referenced :

- MoJ ICT BR7 TTMNNN SIT Test Traceability Matrix-Bichard7 Release N.N \*· MoJ ICT Bichard7 SIT Regression Pack Coverage Matrix vN.NN \*
  - Refer to most recent incarnation/version of this document

Test Procedure originally based on :

· N/A

Pre-requisites :

- Release Note has been provided by IBM
- BR7 Release has been deployed as per the 'Release Note for Bichard 7 v5.7.doc'
- Tests , (smoke test 001) & (smoke test 002) have been successfully run to completion

Historical :

N/A

Test Description :

A Bichard7 Regression Test which verifies the handling of Civil Cases by the Bichard7 solution.  
Court Hearing results containing Recordable and Non-Recordable Civil Offences are sent through the CJSE and onto Bichard7.  
Hearing Outcome XML is successfully created based on ResultedCaseMessage contents.  
An Exception is generated as a result of the incompatible (but valid) combination of Civil (Non-Recordable) & Criminal (Recordable) Offences that have been received from Court.  
No update is therefore made to the PNC.  
Since the Civil Offence Results cannot meet the conditions for the Civil Proceedings Trigger the TRPR0029 Trigger is not generated.  
Other Pre Update Triggers are generated as part of the processing for this Case.

## Access Management

FAT (Steria pre Prod)

RDP (From Orwell User Bastion): WS002 mmm.nnn.8.12

IP Address: 51.231.160.183

## Steps

1	<p>Pre-conditions for this test have been met: New Case Message has been 'Sent to PNC' creating the Impending Prosecution Record*</p> <p>*See Host9 Screen shots folder for PNC tool details</p>	All Pre-conditions as required in order to execute this test have been met
2	<p>Court Resulting Simulation: Inject SPI Resulted Case Message via Test Console</p>	SPI Resulted Case Message is successfully injected into the CJSE - check via Test Console
3	<p>Verify that the following Exception Record ** has been created *</p> <p>No Exception created Fix in 5.10 (RCD647) Exception ID: H0100305 Exception Description: Conviction/Hearing dates and/or Verdict do not make sense</p> <ul style="list-style-type: none"> <li>for info ASN = 1301ZD0100000449619Y ** H0100305 is generated because Civil Offences are currently assumed within the Design and Code to only be present on a Case which is Non Recordable (i.e. on a Case with a Dummy ASN). However, this can occur in certain circumstances (as this scenario defines) and is a valid Test. There is a future change (RCD#647) which will look to avoid this Exception for Cases where both Criminal and Civil Offences are present.</li> </ul>	Exception Record has been created for the Case specified.
4	<p>Verify that the following Trigger Records have been created *</p> <p>Trigger ID = TRPR0020 ( x 2 - Offence-level Trigger) Trigger Short Title = Breach Trigger Description = Update original case with conviction and sentence details</p> <ul style="list-style-type: none"> <li>for info ASN = 1301ZD0100000449619Y</li> </ul>	Trigger records have been created as specified for this Case.
5	<p>Verify that the following Trigger Records ** have NOT been created *</p> <p>Trigger ID = TRPR0029 ( x 1 - Case-level Trigger) Trigger Short Title = Civil Proceedings Trigger Description = Civil proceedings granted or Order made - update records as appropriate</p> <ul style="list-style-type: none"> <li>for info ASN = 1301ZD0100000449619Y ** The Civil Proceedings Trigger (TRPR0029) is NOT generated since the Design and Code is based upon the assumption that a Case containing a Civil Offence will always be Non-Recordable. TRPR0029 is not generated at this point because the case is recordable.</li> </ul>	Trigger records have NOT been created for this Case.
6	<p>Verify using the MTU PNC Test Tool (via a PNC Print request) that the PNC * has been updated:</p> <p>ORDER REVOKED</p> <ul style="list-style-type: none"> <li>for info ASN = 1301ZD0100000449619Y</li> </ul>	<p>PNC has been updated with Court Hearing Results passed on from the Bichard 7 application.</p> <p>1x Order Revoked</p>
