Historical :

Updated to reflect RCD647 which was introduced as part of Bichard7 Release 5.10. H0100305 no longer raised for these types of Cases. Previous description was as follows:

"A Bichard7 Regression Test which verifies the handling of Civil Cases by the Bichard7 solution. Sentence Hearing Court results are sent through the CJSE and onto Bichard7 and a Civil Offence is Added In Court as part of the same Hearing. Hearing Outcome XML is successfully created based on ResultedCaseMessage contents. An Exception is generated as a result of the incompatible (but valid) combination of Civil (Non-Recordable) & Criminal (Recordable) Offences that have been received from Court.

No update is therefore made to the PNC.

Since the Civil Offence Results cannot meet the conditions for the Civil Proceedings Trigger the TRPR0029 Trigger is not generated.
Other Pre Update Triggers are generated as part of the processing for this Case."

Test Description :

A Bichard7 Regression Test which verifies the handling of Civil Cases by the Bichard7 solution.

Sentence Hearing Court results are sent through the CJSE and onto Bichard7 and a Civil Offence is Added In Court as part of the same Hearing.

Hearing Outcome XML is successfully created based on ResultedCaseMessage contents.

No Exception is generated as a result (valid) combination of Civil (Non-Recordable) & Criminal (Recordable) Offences that have been received from Court.

A successful update is therefore made to the PNC.

Since the Civil Offence Results cannot meet the conditions for the Civil Proceedings Trigger the TRPR0029 Trigger is not generated.

Other Pre Update Triggers are generated as part of the processing for this Case.

The implementation of RCD#647 ensures that this type of combination (where both Criminal and Civil Offences are present) avoids the generation of an Exception.	NO Exception Record has been created for the Case specified.
8	Verify that the following Trigger Records have been created * Trigger ID = TRPR0006 (x 1 - Case-level Trigger) Trigger Description = Defendant imprisoned - update custody history Trigger ID = TRPR0003 (x 1 - Offence-level Trigger) Trigger Description = Order Issues - Update Wanted/Missing, check and amend Disposal <ul style="list-style-type: none">for info ASN = 1301ZD0100000449618X	Trigger records have been created as specified for this Case.

TRPR0029 is not generated at this point because the case is recordable.	<p>Trigger records have NOT been created for this Case.</p>
10	<p>Verify using the MTU PNC Test Tool (via a PNC Print request) that the PNC * has been updated:</p> <p>IMPRISONMENT 16 WKS</p> <ul style="list-style-type: none">for info ASN = 1301ZD0100000449618X	<p>PNC has been updated with Court Hearing Results passed on from the Bichard 7 application.</p>
