Historical :

N/A

Test Description :

A Bichard7 Regression Test verifying Bail Condition handling and Results (Adjournment Pre Judgement) automation. Court Hearing results are sent through the CJSE and onto Bichard7. Hearing Outcome XML is successfully created based on ResultedCaseMessage contents, successful queried response from PNC and also from static data tables held within the Exchange-hosted solution. The solution recognises that Bail Conditions are present in the Results from Court and ensures where a Bail Condition exceeds 200x characters in length that an additional Bail Condition is created to handle the 'overflow'. In addition the Bail Conditions received contain an invalid character (a carriage return) and the solution ensures this is converted into a character acceptable to the PNC. PNC Update is generated and the Court Hearing Results are successfully added automatically onto the PNC. Verification is made of the Bail Conditions update to the PNC. Pre Update Triggers are also generated.

Steps		
1	Pre-conditions for this test have been met	All Pre-conditions as required in order to execute this test have been met
2	Court Resulting Simulation: Inject SPI Resulted Case Message via Test Console	SPI Resulted Case Message is successfully injected into the CJSE - check via Test Console
3	Verify that No Exception record has been created on the Exception Portal	Exception record has not been created on the Exception Portal
4	Verify that the following Trigger records have NOT been created: TRPS0006 - Review and amend possible incomplete record on the PNC	NO Trigger records have been created for the case as specified
5	Verify that the following Trigger records have been created: TRPR0010 - Bail conditions imposed/varied/cancelled - update remand screen	Trigger records have been created for the case as specified
6	Verify PNC Host9 Impending Prosecution Record has been updated as follows: 1st Bail Condition: Bail conditions text equal to two hundred characters up to END. This text also contains an invalid character which should be converted into a question mark. Here is the invalid character now ? 2nd Bail Condition: the END	Impending Prosecution Record on PNC has been updated with Court Hearing Results passed on from the Bichard 7 application as per below: £ converted to ? 1st Bail Condition: Bail conditions text equal to two hundred characters up to END. This text also contains an invalid character which should be converted into a question mark. Here is the invalid character ? now 2nd Bail Condition: the END
