Test Description :

A Bichard7 Regression Test verifying Force Owner calculation is ultimately derived from details passed back by the PNC during a PNC query. The Court Hearing Results received contain both valid PTIURN and valid ASN values so the Bichard7 solution uses the FSC segment returned in the ASN Query Response from the PNC to determine the Force (i.e. those users) that is able to view the Trigger Records that are created. This is then verified by logging in as Users belonging to Forces that SHOULD NOT and SHOULD be able to view the Record.

Note that this Test follows the standard MET Police practice as advised by Steve Green i.e. changing only the report Owner and not the Originator of the ASN. Post Update Triggers are also created.

Steps

1	Pre-conditions for this test have been met: This test has already been set up on the PNC baseline with a change of Force Owner (by Steve Green) as per MET police standard procedure.	All Pre-conditions as required in order to execute this test have been met
2	Verify that the following properties files and associated property values have been configured as part of the BR7 solution: hoValidatorAmender.properties new properties/values: <ul style="list-style-type: none"> use.pnc.force.code=true dummy.ASN.patterns=0800(N P)P01[0-9]11[A-HJ-NP-RT-Z]1,[0-9]4NRPR[0-9A-Z]12,[0-9]212LN00[0-9]11[A-HJ-NP-RT-Z]1,[0-9]200NP00[0-9]11[A-HJ-NP-RT-Z]1 dummy.FS.patterns=00(N P)P,[0-9]200 valid.force.codes=01,02,03,04,05,06,07,10,11,12,13,14,16,17,20,21,22,23,24,30,31,32,33,34,35,36,37,40,41,42,43,44,45,46,47,48,50,52,53,54,55,60,61,62,63,88,89,93 updateBuilder.properties revised properties/values: <ul style="list-style-type: none"> dummy.FS.patterns=00(N P)P 	Properties file and new/revised associated property values have been configured as specified.
3	Verify that the following users and associated profiles have been configured via the Administration Portal: <ul style="list-style-type: none"> Username: transport.police Inclusion List: 093 Exclusion List: blank Username: met.police Inclusion List: 001 Exclusion List: blank 	Users have been correctly configured as specified.
4	Court Resulting Simulation - Valid PTIURN, valid ASN: Inject SPI Resulted Case Message via Test Console	SPI Resulted Case Message is successfully injected into the CJSE - check via Test Console
5	Login as the following User: <ul style="list-style-type: none"> transport.police** ** This User is ONLY configured to be able to see BTP-based Court Hearing results Case is available to the Transport Police user. Case Tab: Force Owner = 93AX	Test follows the standard MET Police practice as advised by Steve Green i.e changing only the report Owner and not the Originator of the ASN. Force Owner value updated from a MET Police value 001 to a transport police 93AX
6	Login as the following User:	Met.police user cannot see the record

- met.police

Verify user cannot see the record
