Test Description :

A Bichard7 Regression Test verifying AINT results handling: Court Hearing Results are sent through the CJSE and onto Bichard7 containing Libra AINT results for a Recordable Offence that is already on the PNC and for a Stop Listed Offence that was Added In Court.  
A Pre Update Trigger is created for the Recordable Offence only.  
No PNC updated is generated since the solution recognises that AINT results are of no interest to the Police.
