Test Description :

A Bichard7 Regression Test verifying Non Police Prosecuting Authority (NPPA) Court Results and Exception generation. NPPA Court Hearing Results are sent through the CJSE and onto Bichard7 containing a recordable offence generating an Exception on the Portal and no PNC Update.

An additional NPPA Court Hearing Result is sent through the CJSE and onto Bichard7 containing no recordable offences/results which results in the solution ignoring the results (since PNC has no interest) and logging the message to the General Event Log.
