Test Description :

A Bichard7 Regression Test verifying Remand in Custody with Pre-Release conditions handling:Court Hearing Results (Custody with Pre Release Conditions) are sent through the CJSE and onto Bichard7.
The solution recognises that the Bail Status is considered to be a Custodial Remand and as a result the Court Result does not appear on the Bail Conditions

Report.
A Pre Update Trigger is created (not TRPR0010) to indicate the Defendant's Remand Status (Custody with Bail Direction).
The PNC is successfully updated. No Bail Conditions are added onto the PNC.
