Test Description :

A Bichard7 Regression Test which verifies the handling of result code 2060 when result code 2050 is also present on the same offence. Offence 1 receives both result 2060 - replaced with another offence and result 2050 - Dismissed. PNC is not updated with the 2050 result. An offence is added in court (the replacement offence as indicated by the 2060 result for offence 1) which receives a guilty verdict with a result of 4506 - sentence postponed. A new remand is also added to PNC for this result. Trigger TRPS0010 is produced for the offence added in court.
