Test Case Description

Release 5.11 specific – Test verifies those changes brought about as part of RCD entry #688. This test will confirm Existing offence with 2060 and 2050 result. An offence is added in court with a 2059 result. Then replace 2060 with 2063 result and remove 2050 from the update to PNC. TRPRS0010 Produced

IP Address: 51.231.160.183

Steps

1
Pre-conditions for this test have been met:
New Case Message has been 'Sent to PNC' creating the Impending Prosecution Record*
*See Host9 Screen shots folder for PNC tool details

All Pre-conditions as required in order to execute this test have been met

2
Court Resulting Simulation:
Inject SPI Resulted Case Message via Test Console

SPI Resulted Case Message is successfully injected into the CJSE – check via Test Console

3
Verify that NO Exception record has been created on the Exception Portal *

- ASN = 1101ZD0100000500014C

NO Exception record has been created on the Exception Portal to reflect this successful automated transfer of results from the Courts to PNC

Note (IBM) that current Test Cycle1 R5.11 implementation attempts to send the 2063 and 2050.
This case is a mixture of RCD688 and RCD528. We have not removed the 2050 as we have treated the other result as a 2063 result rather than a 2060 and hence it doesn't remove the 2050 result.
Whilst not aware the expected behaviour was documented anywhere it may still be desirable especially as the PNC won't accept 2063 and 2050 on the same offence.

4
Verify that POST UPDATE Trigger records have been created on the Exception Portal * with the following values:

- Trigger ID = TRPS0010

- Trigger Message = Offence addded to the PNC - Update MO Screen/Offence Location/Update 3042

- ASN = 1101ZD0100000500014C

Trigger record has been created on the Exception Portal with the values defined.

5
Verify using the MTU PNC Test Tool (via a PNC Print request) that the Impending Prosecution Record has been correctly updated

Offence 1 (Theft of Cycle)
PNC is updated with 2063 result (Withdrawn - Final) in place of 2060 (Replaced with another Offence)
2050 is not displayed (removed)
Offence is displayed in Non-Convictions

Impending Prosecution Record on PNC has been updated correctly with Court Hearing Results passed on from the Bichard 7 solution. The Offence Added in Court has also been added to the PNC (Remand). PNC Print reflects the results sent from the B7 solution.

Offence 2 (Aggrivated Vehicle Taking)
Result 2059 - Carried Forward to Court Case Case
Offence is displayed in Impending Prosecutions
PNC is updated with Remand details
Creates a new case/CCR

For Release 5.11 Only Do not check if in regression pack
PNC HOST9 Front End (Steve Green)
Offence 1 (Theft of Cycle)
Result 2063 - Withdrawn Final

Offence 2 (Aggrivated Vehicle Taking)
Result 2059 - Carried Forward to Court Case Case
Creates a new case/CCR
